### What are the Risks of Investing?

The risk indicator for the Devon Global Themes Fund is below:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 31 December 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

This shows the return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 31 December 2017. **Important:** This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?<sup>3</sup>

Investors in the Global Themes Fund are charged Fund charges. In the year to 31 December 2017 these were:

| Global Themes Fund                                                                                                        | % of Net Asset Value |
|---------------------------------------------------------------------------------------------------------------------------|----------------------|
| Total Fund Charges<br><small>These are comprised of the below management, administration and performance charges:</small> | 1.20%                |
| Manager's basic fee:                                                                                                      | 0.90%                |
| Other management and administration charges:                                                                              | 0.30%                |
| Performance fees (if applicable):                                                                                         | 0.00%                |

Investors are not charged individual action fees for specific actions or decisions at this time (for example, withdrawing, switching, buy/sell spread or entry/exit fees). See the [Product Disclosure Statement](#) for more information about those fees and the basis on which performance fees are charged.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Global Themes Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$1,590 (that is 15.90% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1,503 for the year.
