Date the fund started	3 Jun 2010

What are the Risks of Investing?

The risk indicator for the Devon Alpha Fund is below:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 30 June 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at:

NB: Even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

See the Devon Product Disclosure Statement (PDS) for more information about the risks associated with investing in this Fund.

How has the Fund performed?¹

Devon Alpha Fund	Avg. over past 5 Years	Past Year

How has the Fund performed in the past?

Annual Return Graph²

This shows the return after fund charges and tax for each year ending 31 March since the Fund started. The last bar shows the average annual return since the Fund started, up to 30 June 2017. **Important:** This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?³

Investors in the Alpha Fund are charged Fund charges. In the year to 30 June 2017 these were:

Devon Alpha Fund	% of Net Asset Value
Total Fund Charges <small>These are comprised of the below management, administration and performance charges:</small>	1.25%
Manager's basic fee:	1.00%
Other management and administration charges:	0.25%
Performance fees (if applicable):	0.00%

Investors are not charged individual action fees for specific actions or decisions at this time (for example, withdrawing, switching, buy/sell spread or entry/exit fees). See the [product disclosure statement](#) for more information about those fees and the basis on which performance fees are charged.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Devon Alpha Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$327 (that is 3.27% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$282 for the year.
