DEVON TRANS- TASMAN FUND

What is the purpose of this update?

This document provides key information about the Devon Trans-Tasman Fund ("Trans-Tasman Fund"). It tells you how the Fund has performed and what fees it charged, and will help you to compare it with other funds. Devon Funds Management Limited prepared this statement in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this Fund

The Trans-Tasman Fund is a select portfolio of approximately 25-35 well researched companies which are primarily New Zealand and Australian listed companies. The Trans-Tasman Fund is actively managed, which means the holdings and returns may differ considerably from its benchmark. While the Trans-Tasman Fund tends to be fully invested in shares, when there are few compelling investment opportunities the Fund may hold some cash or cash equivalent securities.

For the quarter ended at 31 March 2017

Total value of the fund	\$126,531,395
Date the fund started	30-Sep-98

What are the Risks of Investing?

The risk indicator for the Devon Trans-Tasman Fund is below:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for 31 March 2017. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at:

How has the Fund performed in the past?

Annual Return Graph²

Devon took over the portfolio management of the Fund from a previous manager in March 2010. This shows the return after fund charges and tax for each year ending 31 March since the Fund started with Devon. The last bar shows the average annual return since the Fund started, up to 31 March 2017. **Important:** This does not tell you how the Fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?³

Investors in the Trans-Tasman Fund are charged Fund charges. In the year to 31 March 2016⁷ these were:

Devon Trans-Tasman Fund	% of Net Asset Value
Total Fund Charges	1.48%
These are comprised of the below management, administration and performance charges:	
Manager's basic fee:	1.00%
Other management and administration charges:	0.25%
Performance fees (if applicable):	0.23%

Investors are not charged individual action fees for specific actions or decisions at this time (for example, withdrawing, switching, buy/sell spread or entry/exit fees). See the [product disclosure statement](#) for more information about those fees and the basis on which performance fees are charged.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Devon Trans-Tasman Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$1,060 (that is 10.60% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1,027 for the year.
