## DEVON SUSTAINABILITY FUND

### What is the purpose of this update?

This document tells you how the Devon Sustainability Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Devon Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Devon Sustainability Fund is a select portfolio of well researched New Zealand and Australian listed companies that exhibit sustainable characteristics and those which demonstrate credible strategies to improve their outcomes with respect to ESG factors. The Fund also employs an ethical screen which will prohibit investment into certain companies and sectors. The Fund is actively managed, which means the holdings and returns may differ considerably from its benchmark. While the Fund tends to be fully invested in shares, when there are few compelling investment opportunities the Fund may hold some cash or cash equivalent

### What fees are investors charged?

Investors in the Sustainability Fund are charged fund charges. Based on the PDS dated 8 October 2021, these were:

	% of Net Asset Value
Total Fund Charges	1.25%
Comprising of the below management, administration and performance charges:	
Manager's basic fee:	1.00%
Other management and administration charges:	0.25%
Performance fees (if applicable):	0.00%

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the [PDS](#) for more information about those fees.

### What are the risks of investing?

Risk indicator for the Sustainability Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 September 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Devon Sustainability Fund at the date the Fund started, 1 September 2020, and did not make any further contributions. At the period ending 30-Sep-21, Chris received a return after fund charges were deducted of \$2,458 (that is 24.58% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$2,335 for the year.

## Notes

1. A combination of actual Fund and market index returns has been used to determine the risk indicator as the Fund has not been operational for the required 5 years. The risk indicator may therefore provide a less reliable indicator of potential future volatility of the Fund.
