DEVON AUSTRALIAN FUND

What is the purpose of this update?

This document tells you how the Devon Australian Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Devon Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Australian Fund is a select portfolio of well researched companies which are primarily Australian listed companies. The Australian market offers exposure to a number of sectors that are not available in New Zealand. The Australian Fund is actively managed, which means the holdings and investment returns may differ considerably from its benchmark.

While the Fund tends to be fully invested in shares, it may hold some cash or cash equivalent securities.

Total value of the fund	\$18,043,855.59
Date the fund started	20 August 2010

What are the risks of investing?

Risk indicator for the Devon Australian Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2022. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the [Product Disclosure Statement \(PDS\)](#) for more information about the risks associated with investing in this fund.

How has the fund performed?¹

	Avg. over past 5 Years	Past Year

Annual return graph²

This shows the return after fund charges and tax for each year ending 31 March for the last 10 completed years. The last bar shows the average annual return for the last 10 completed years, up to 31 March 2022. Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?³

Investors in the Devon Australian Fund are charged fund charges. In the year to 31 March 2022 these were:

	% of Net Asset Value
Total Fund Charges	1.68%
Comprising of the below management, administration and performance charges:	
Manager's basic fee:	1.00%
Other management and administration charges:	0.25%
Performance fees (if applicable):	0.43%

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the [PDS](#) for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Devon Australian Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$1,231 (that is 12.31% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1,136 for the year.
