Date the fund started	3 June 2010

What are the risks of investing?

Risk indicator for the Devon Alpha Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2023. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the [Product Disclosure Statement \(PDS\)](#) for more information about the risks associated with investing in this fund.

How has the fund performed?¹

	Avg. over past 5 Years	Past Year
Annual Fund Return (after deduction for fund fees and tax)	8.05%	12.16%
Annual Fund Return (after deduction for fund fees but before tax)	8.37%	12.87%
Market index* annual return (reflects no deduction for charges and tax)	4.39%	7.78%

*The Market Index return is for indicative purposes only. The Devon Alpha Fund is an actively managed absolute return fund that does not track an equity index. The market index is based on 50% of the 90 day bank bill returns and 50% of the 50:50 S&P/NZX50 Gross Index and the S&P/ASX200 Gross Accumulation Index. For details on the calculation of the Market Index Return please refer to www.companiesoffice.govt.nz/disclose.¹ Please refer to Further Information on the bottom of page 2. Additional information about the market index is available on the offer register.

Annual return graph²

This shows the return after fund charges and tax for each year ending 31 March for the last 10 completed years. The last bar shows the average annual return for the last 10 completed years, up to 30 June 2023.
Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?³

Investors in the Devon Alpha Fund are charged fund charges. In the year to 31 March 2023 these were:

	% of Net Asset Value
Total Fund Charges	1.25%
Comprising of the below management, administration and performance charges:	
Manager's basic fee:	1.00%
Other management and administration charges:	0.25%
Performance fees (if applicable):	0.00%

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the [PDS](#) for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Devon Alpha Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$1,287 (that is 12.87% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1,216 for the year.
