

For the quarter ended 31 December 2024

This fund update was first made publicly available on 13 February 2025

DEVON GLOBAL SUSTAINABILITY FUND

What is the purpose of this update?

This document tells you how the Devon Global Sustainability Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Devon Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund aims to deliver long-term total returns in excess of the index by investing in the equities of companies globally, that generate high return on capital relative to their peers, and whose management teams and boards display exemplary stewardship to sustain those returns over time.

The Fund obtains this exposure through investment in the Wellington Global Stewards Fund managed by Wellington Management.

Total value of the fund	\$65,773,698.58
Date the fund started	28 March 2022

How has the fund performed?²

	Past Year
Annual Fund Return (after deduction for fund charges and tax)	19.89%
Annual Fund Return (after deduction for fund charges but before tax)	21.18%
Market index annual return (reflects no deduction for charges and tax)	26.63%

The market index annual return reflects the return of MSCI All Country World Index in NZD, 50% hedged to NZD. Additional information about the market index is available on the offer register at disclose-register.companiesoffice.govt.nz.

Annual return graph³

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started up to 31 December 2024. Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What are the risks of investing?¹

Risk indicator for the Devon Global Sustainability Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2024. While risk indicators are usually relatively stable they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the [Product Disclosure Statement \(PDS\)](#) for more information about the risks associated with investing in this fund.

What fees are investors charged?⁴

Investors in the Devon Global Sustainability Fund are charged fund charges. In the year to 31 March 2024 these were:

	% of Net Asset Value
Total Fund Charges	1.20%
Comprising of the below management, administration and performance charges:	
Manager's basic fee:	0.95%
Other management and administration charges:	0.25%
Performance fees (if applicable):	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investments over the long term.

Chris had \$10,000 in the Devon Global Sustainability Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$2,118 (that is 21.18% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1,989 for the year.

Further information

You can also obtain this information, the PDS for the Devon Funds, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz

Notes

(1) Because the Fund has not been operational for the required five years we have determined the risk indicator using a combination of index and actual returns. Therefore, it may provide a less reliable indicator of potential future volatility. (2) After tax performance assumes an investor is taxed at the highest Prescribed Investor Rate of 28%. (3) Fund returns are after deduction of fees. (4) Fund fees are charged as a percentage of an investor's interest in the Fund. See the PDS for more information about the basis on which performance fees are charged.
