## DEVON TRANS-TASMAN FUND

### What is the purpose of this update?

This document tells you how the Devon Trans-Tasman Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Devon Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The Fund invests in a select portfolio of well researched companies which are primarily New Zealand and Australian listed companies. The Trans-Tasman Fund is actively managed, which means the holdings and returns may differ considerably from its benchmark.

Total value of the fund	\$105,247,469.19
Date the fund started	30 September 1998

### What are the risks of investing?

Risk indicator for the Devon Trans-Tasman Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter). Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the [Product Disclosure Statement \(PDS\)](#) for more information about the risks associated with investing in this fund.

### How has the fund performed?<sup>1</sup>

	Avg. over past 5 years	Past Year
Annual Fund Return (after deduction for fund charges and tax)	6.71%	11.43%
Annual Fund Return (after deduction for fund charges but before tax)	7.38%	12.18%
Market index annual return (reflects no deduction for charges and tax)	6.00%	12.83%

The market index annual return reflects the return of 50:50 composite of the S&P/NZX50G index and the S&P/ASX200G index unhedged to NZD. Additional information about the market index is available on the offer register at [disclose-register.companiesoffice.govt.nz](http://disclose-register.companiesoffice.govt.nz).

### Annual return graph<sup>2</sup>

This shows the return after fund charges and tax for each of the last 10 years. The last bar shows the average annual return for the last 10 years up to 31 December 2024. Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?<sup>3</sup>

Investors in the Devon Trans-Tasman Fund are charged fund charges. In the year to 31 March 2024 these were:

	% of Net Asset Value
Total Fund Charges	1.40%
Comprising of the below management, administration and performance charges:	
Manager's basic fee:	1.00%
Other management and administration charges:	0.25%
Performance fees (if applicable):	0.15%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investments over the long term.

Chris had \$10,000 in the Devon Trans-Tasman Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$1,218 (that is 12.18% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1,143 for the year.
